## Overseeing group planning implementation activities for each center

### Use Case 1: GEOMAR

Working group:

- HMC: Andrea Pörsch, Emanuel Söding
- GEOMAR: Hela Mehrstens, Klaus Getzlaff

What is the current status in capturing PIDs?

Sure — here is a brief wiki-friendly version with bullet points and preserved links:

At GEOMAR, research data management is supported by institutional policies and guidance. \* A **research data policy** is in place:

[[https://doi.org/10.3289/data\\_policy\\_V1\\_2022](https://doi.org/10.3289/data_policy_V1_2022)]([https://doi.org/10.3289/data\\_policy\\_V1\\_2022](https://doi.org/10.3289/data_policy_V1_2022)) \* A

**publication policy** is also available:

See more information on particular PID types in the PID implementation chapters.

\* *which PIDs are already systematically captured? Describe details in PID sub-pages.*

\* *who is responsible for capturing them?*

\* *what tools are used to capture them, where are they captured? Links to tools if possible.*

\* *are there already established workflows describing these processes? Describe details in PID sub-pages.*
